

CLAS Discipline Specific Tutors

Job Description: Disciplines include mathematics, physics, engineering, biology, chemistry, statistics, economics, selected languages, and writing. Tutors assist students in understanding course concepts, discovering solutions to problems, developing methods for independent work, and preparing for upcoming exams. Tutors may work in group, individual and drop-in tutorial settings.

Time Commitment: Tutors are committing for an entire academic year.

Compensation: Paid on hourly basis according to the published salary scales.

Minimum Requirements: At least a third-year (not academic standing) student by fall quarter, with a minimum overall GPA of 3.0, and enrolled in a minimum of 12 units per quarter for the entire time employed by CLAS. Must have an interest in teaching and demonstrate an ability to explain course material.

Desired Requirements: An overall GPA of 3.3 or higher.
